

CSWC Operational Period Summary 0600 July 03 2014 to 1800 July 03 2014

Butts Incident Napa County Photos: Kent Porter, Associated Press

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

SITUATION SUMMARY

Butts Incident, Vegetation Fire, Napa County

Fire Information:

- Per ICS 209 dated 07/03/14 at 1300 hours
- 4300 acres brush, 45% contained
- Residential Structures Threatened: 180 Destroyed: 2
- Other Minor Structures Destroyed: 7
- Fire Management Assistance Grant (FMAG) was approved. FEMA-5057-FM-CA

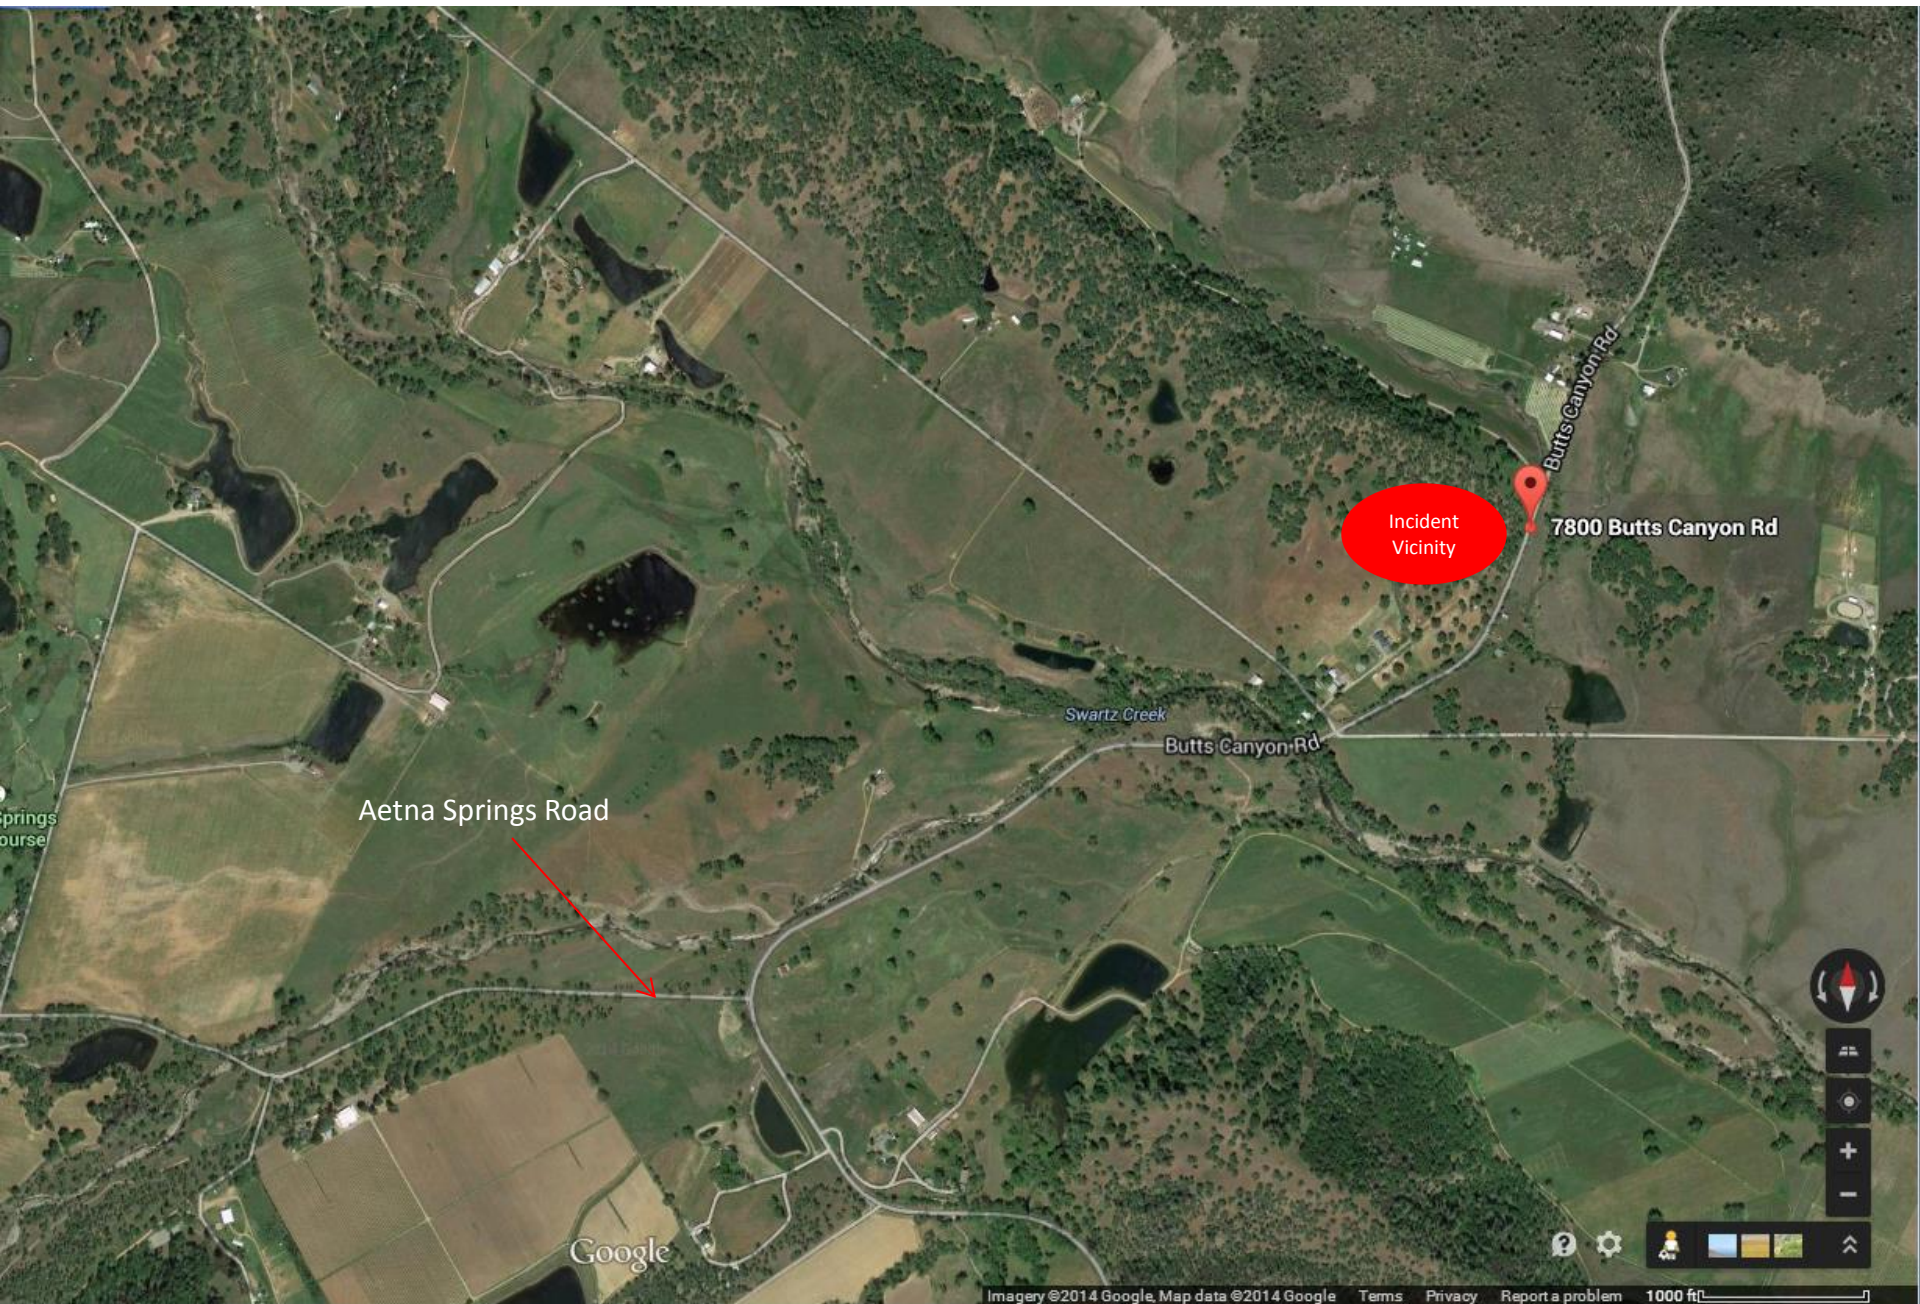

Emergency Management:

Evacuations/Shelters

- All Evacuation orders have been lifted.
- Evacuation Shelter at Middletown High School has closed

Critical Infrastructure

- The California Dept. of Public Health (CDPH) that issued a Boil Water Notice (BWN) for the Berryessa Estates has been cancelled by CDPH.

SITUATION SUMMARY

Banner Incident, Vegetation Fire, San Diego County (New)

Fire Information:

- 150 acres brush, 15% contained
- Fire is currently holding within the retardant lines with crews constructing direct fire line
- 2 structures and 1 outbuilding destroyed
- Cal OES Assistant Fire Chief is on scene
- Fire Management Assistance Grant (FMAG) submitted to Cal OES. The FMAG does not meet criteria and has been placed on hold.

Emergency Management:

Evacuations/Shelters

- There are two areas issued reverse 911 notices at a total of 512; Kentwood in the Pines and Pinewood.
- Temporary Evacuation Point located at Jess Martin County Park. 2955 Highway 79, Julian CA.

Law Enforcement Resources

- Law Enforcement resources are staging at 1524 SR 78.

Road Closures

- SR-78 between Wynola and San Felipe (S2) is closed.

Emergency Operation Center (EOC) Activations

- San Diego County EOC staying at level 1 until repopulation of the residents.
- Cal OES Southern Region EOC remains activated at Level 1

SITUATION SUMMARY

Northern California:

Modoc July Complex Modoc County

Fire Information:

2 miles south of Dalton Reservoir

Fires in the complex: Dalton, Dobie, Northern, Janes, 16 other fires for 74 acres.

- Acres – 1,854
- Containment- 20%

Coleman, Vegetation Fire, Modoc County

Fire Information:

25 miles east of Fort Bidwell, California

- Acres- 7,492
- Containment- 15%
- Threat to grazing land, Sage Grouse habitat, residential ranches 1-3 miles north and south

Gulch, Vegetation Fire, Modoc County (New)

- 15 Miles North of Canby along Hwy 139
- SRA/FRA
- Unified Command with CAL FIRE LMU and Modoc National Forest
- Start Time: 1546 hours
- 5 Fires, 100 acres, Grass and Brush, 0% contained
- Moderate Rate of spread
- Threat to Power lines, Railroad and 2 structures
- CAL FIRE Air and Ground Resources committed

SITUATION SUMMARY

Southern California:

Ranch, Vegetation Fire, Kern County

Fire Information:

10 miles west Lake Isabella, Kern County

ICS-209 dated 7/3/2014 at 0510 hours

- Acres- 150
- Containment- 0%
- Cooper Type 2 IMT assigned
- No Local Government commitment

SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Blowing Dust Advisories Southeast California :

The National Weather Service provided the following synopsis for the relationship of Blowing Dust Advisories and the drought conditions in southeast California: Dust storms are common due to increased thunderstorm activity and the winds produced with these storms, during monsoonal flows. The severity of the dust storms could be locally exacerbated by drought conditions. In any event, the public should monitor NWS for any advisories and warnings issued by NWS.

Camp San Luis Obispo Last Power Outage Reminder- Monday, July 7, 2014

- The outage will start at 0730 and last most of the duty day. Please ensure sensitive electronics are unplugged prior to power being restored. This will impact CSTI from the aspect that their phones and Guest wireless/ Internet will be down. The servers should be up, but they will lose some functionality.

Significant Weather

- Red Flag Warning remains in effect from 7/4/2014 1300 hours to 2100 hours for Modoc, Siskiyou and Lassen Counties.

WEATHER

Northern Region

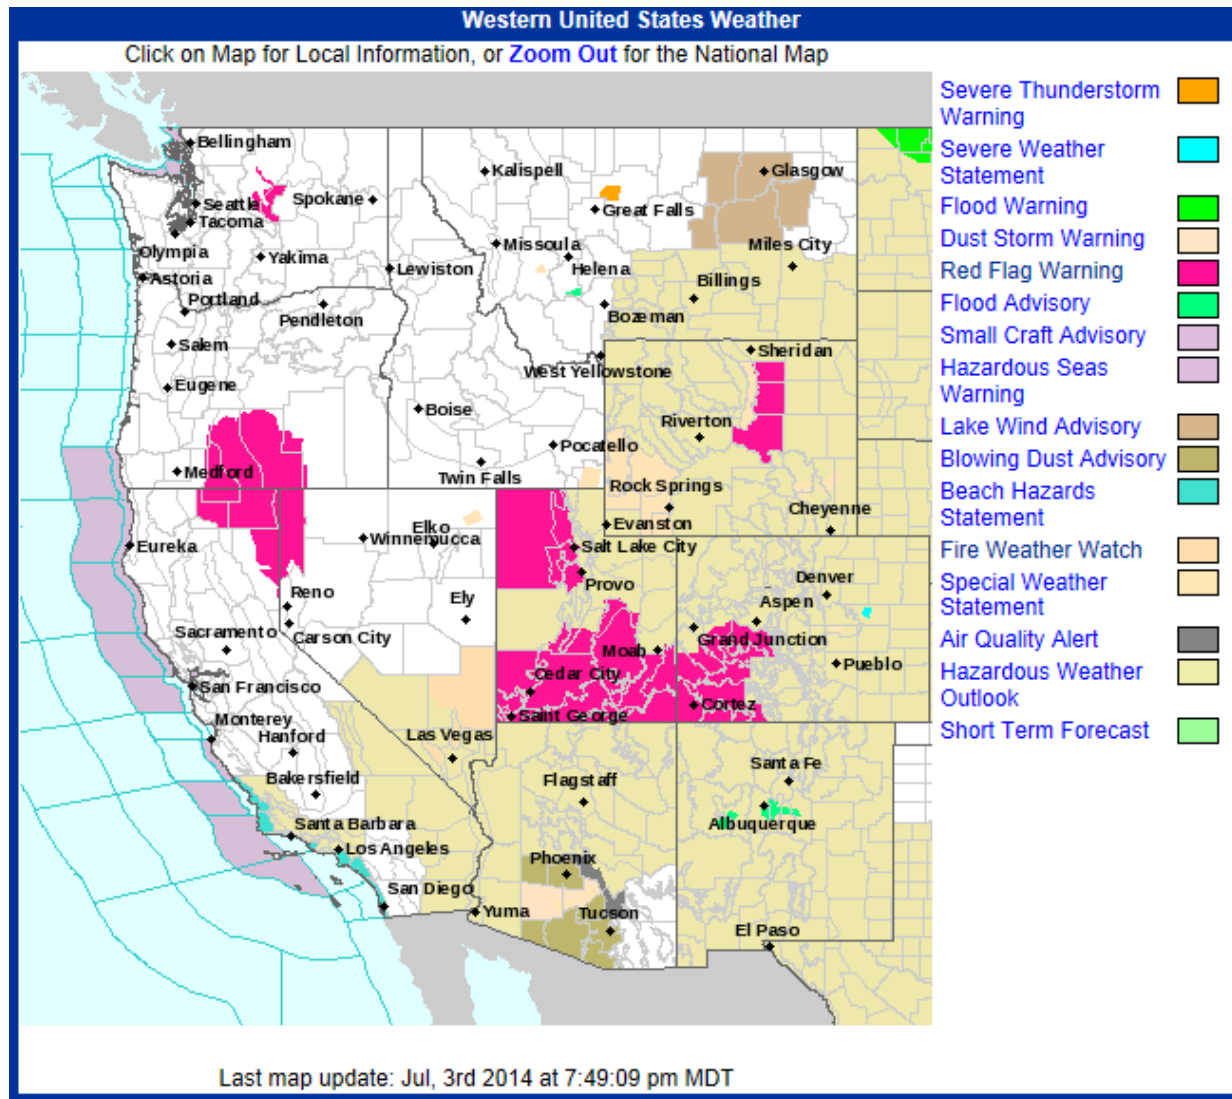

A drier westerly flow is over the Northern California today and the chances of afternoon and evening thunderstorms is going to be slight and most likely just over the northeast mountain areas. Some small afternoon cumulus in the northwest is likely. A bit cooler temperatures will be in place Friday, which will be the coolest day through the 7 day period. Temperatures in the warmest inland valleys will be around 100 for the next three days. Over the weekend a strong high pressure ridge will move over the region. There will be some southerly flow to bring some moisture north along the Sierra with a chance of thunderstorms mostly south of Tahoe early next week. Although uncertain at this time, the chance of thunderstorms may begin to creep northward later next week. Strong heating will bring well above normal temperatures to inland areas, with the northern Sacramento Valley expected to be near 110 Monday, which is on the order of 12 degrees above the seasonal norm. The marine layer will continue to variable along the coast and become rather thin.

Weather

Southern Region

An area of high pressure working in concert with tropical storm Douglas will begin to steer some subtropical moisture into southern California Friday. But before then, expect another mostly sunny and warm day across most of the district. Inland temperatures will continue to run 5-10 degrees above normal which translates into highs in the 70s along the coast to the 90s in the valleys. The San Joaquin Valley will see readings of 101-105 and the low desert will be around 115. Minimum relative humidity will be in the teens across most of Southern California, but the introduction of drier air in Central California will lead to a 6-8 hour period of relative humidity approaching the single digits today and again each afternoon this weekend along the central coast. Friday, high clouds will increase in the afternoon as the moisture flux reaches the state, which may cause temperatures to be a degree or two cooler during the afternoon. Most of the deeper moisture is not expected to arrive until Saturday, but there is a small chance isolated thunderstorms may develop across areas south and east of Los Angeles County Friday evening. One or two dry strikes may occur Friday evening with the best chance being in San Diego County. Saturday, deeper moisture is expected to arrive which will allow for wet thunderstorms to develop during the late morning into the early afternoon hours. The thunderstorm chances now appear to extend from the eastern side of the Angeles National Forest Southward to San Diego County and across the deserts south and east of I-15. Brief heavy rain may occur, especially in the San Bernardino and Cleveland National Forest. Fewer thunderstorms are expected after Saturday, but the chance of wet thunderstorms will likely shift north into the Sierras by Sunday and Monday. Drier weather is likely over Southern California by the first part of next week, but daily rounds of afternoon convection will be possible in the Sierra's much of next week. Temperatures will continue to be above normal through the period.

Butts Incident, Vegetation Fire, Napa County (Updated)

Fire Information:

- Per ICS 209 dated 07/03/14 at 1800 hours
- 4300 acres brush, 45% contained
- Residential Structures Threatened: 180, Destroyed: 2
- Other Minor Structures Destroyed: 7
- Fire Management Assistance Grant (FMAG) was approved. FEMA-5057-FM-CA

Local Government Equipment Committed

- Five Local Government Strike Teams- (1) Type 1 Strike Team, (3) Type 3 Strike Teams, (1) Type 5 Strike Team
- One Water Tender
- Two Engines

Total Personnel Committed: 2921

Emergency Management:

Evacuations/Shelters

- All Evacuation orders have been lifted.
- Evacuation Shelter opened at Middletown High School, 20932 Big Canyon Rd, Middletown, Ca;

Butts Incident, Vegetation Fire, Napa County (Updated)

Cal OES Deployments

- Cal OES Assistant Fire Chief Salvate is on scene

Road Closures

- There are a few road closures but those will be lifted tomorrow as well with no restrictions
- Road closures being manned by California Highway Patrol

Critical Infrastructure

- The Mendocino District is issuing a Boil Water Notice for the Lake Berryessa Resort Improvement water system (aka Berryessa Estates, system no. 2800526) due to a fire in the immediate area. The water system serves a population of approximately 500 people in Napa County from 179 connections.
- Public Safety Communications has assigned three technicians. There are no specific resources being impacted at this time.

Emergency Operation Center (EOC) Activations:

- Napa County OES is currently at duty officer status.
- Lake County OES is currently at duty officer status.
- Cal OES Coastal Region Duty Officer is currently at Level 1 status.

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

****As our state's rainy season comes to an end, it is highly unlikely that precipitation totals will increase significantly. This winter's below average rain and snowfall worsens conditions in this third straight dry year.****

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- DWR has announced that water essential for health and safety will be delivered through the state water project. The current State Water Project Allocation is 5%.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

CAL OES MISSIONS

New Cal OES Missions

- **2014-LAW-3978**, San Bernardino County Sheriffs Office is requesting Human Remains Detection (HDR) for a homicide investigation. The Cal OES Law duty Officer is coordinating the resources.

CAL OES MISSIONS

Ongoing Cal OES Missions

- **2014-LAW-3961**, On behalf of Fairfield Police Department, Solano County Sheriff is requesting one Human Remains Detection (HRD) K9 to assist in a 30 year cold case homicide. The Cal OES Law Duty Officer is coordinating resources.
- **2014-LAW-2798**, El Dorado County is planning an in-county SAR exercise on 07/15/14 for their volunteers and have requested the assistance of the California National Guard (CNG) aviation assets to support the exercise. Elements of the exercise will include an orientation to the various CNG air assets (H72, H60 and CH47), hoist training, patient packaging for air evacuation and ground team insertion and extraction training.
- **2014-LAW-2483**, The 95th CST will provide area monitoring, secure communications, and WMD expertise for the IRL Racing Event at Sonoma Raceway August 22-24, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2481**, The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NHRA Racing Event at Sonoma Raceway July 25-27, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
